An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the CLAIMS:

Claims 24-25 have been canceled.

The following is an examiner's statement of reasons for allowance: it is deemed novel and unobvious over the prior art of record to perform a method of making a cable tie using insert molding for molding a front portion comprising a head as claimed, further including forming a strap having a front end and tail, wherein the strap is continuously molded using rotary extrusion molding and punch-cutting the strap to individual finished size and shaping the front and tail ends as claimed in claim 1, wherein the molding is performed on the front end of the strap; including continuously molding a strap material using rotary extrusion molding with the strap material having a front end, rear end, and a bottom surface being shaped to include a plurality of laterally extending teeth, then

cutting the strap material to yield a strap of finished size having a front and tail end as claimed in claims 12, 26, 27, wherein the molding is performed on a front end of the strap and the head is shaped as claimed in claim 12; and further including simultaneously insert molding in claims 26-27.
